**BOSTON EDISON COMPANY’S, d/b/a NSTAR ELECTRIC,
SIXTH SET OF INFORMATION REQUESTS TO
WELLESLEY MUNICIPAL LIGHT PLANT**

Below are Boston Edison Company’s, d/b/a NSTAR Electric (“Boston Edison”), sixth set of information requests in this proceeding. For purposes of these information requests, please refer to the instructions provided with the second set of information requests that Boston Edison propounded.

BE-6-1 With reference to the response to Information Request Exhibit 3, and the September 17, 2001 email from Peter Watt to Gary Babin with the statement “Got your phone message – will delete this e mail,” please explain in full:

- (a) The email to be deleted;
- (b) The content of the phone message to Peter Watt;
- (c) Why there was a request to delete the email;
- (d) What was set forth in the email that was deleted; and
- (e) Why comments regarding the Department of Telecommunications and Energy were not recorded in the minutes of meetings.

BE-6-2 With regard to the response to Information Request Exhibit 3, and the chart entitled “HIGH VOLTAGE SCHEDULE” dated July 20, 2001, please indicate whether this schedule is still accurate and in force. If not, please provide a new schedule reflecting the installation of permanent facilities.

BE-6-3 With regard to the response to Information Request Exhibit 2 and the October 8, 1999 letter from Gary Babin to David Peduto containing the statement that “the Olin Foundation has verbally indicated that they wish to secure their electric supply from WMLP through the Babson College switchgear,” please indicate who made the verbal commitment and to whom. Please provide the names of all Olin, Babson and WMLP personnel involved in making or receiving the above-referenced verbal commitment.

BE-6-4 Please describe and provide a copy of any easements or other land use rights of any kind WMLP has or plans to have from Olin and/or Babson for the placement of electric facilities.

- BE-6-5 Regarding any meetings held between any combination of Babson, Olin and WMLP since January 1, 2002, please describe when such meetings have been held, and specify the attendees and provide the agendas of any such meetings. Also, provide the minutes of all such meetings or, if no minutes are available, a summary of the topics discussed. Also include any materials distributed or referenced at such meetings.
- BE-6-6 With reference to Attachment BE-1-8A, there is an electricity cost analysis dated October 27, 2000, which is an update to an original analysis dated November 19, 1999, conducted by LaCapra Associates. In this 2000 analysis, please explain what is being updated. Also, please explain the Power Options alternative and whether the Power Options alternative would be available if Olin took service from: (a) Boston Edison; or (b) WMLP. Please provide a copy of all documentation relating to the Power Options alternative.
- BE-6-7 With reference to Attachment BE-1-5B, under Note 3 there is the following statement: "All electrical power ductbanks and manholes shall be built to [Wellesley Municipal Light Plant ("WMLP")] standards." Please provide a copy of all WMLP standards for ductbanks, switchgear and electrical interconnection.

Dated: February 19, 2002
